#### **Topic:**

Assessment literacy

#### **Goals:**

##### On teacher educator level:

The OER aims to

- help teacher educators in organizing the teaching of assessment by outlining a tested sample structure of a foreign language education assessment course.
- provide concrete assessment tasks.
- provide tools and criteria for assessing subject teacher students' learning outcomes.

##### On student teacher level:

Students who have completed the course outlined in the OER will

- understand the dimensions of society and education policy that are related to assessment in developing teaching and education.
- understand the principles and types of multifaceted formative and summative assessment of learning and apply them purposefully as well as assess one's own solutions critically.

- know the different functions and objectives of assessment and the significance of feedback and assessment for developing the teaching of one's own subject and the school community.
- have preparedness to network with stakeholders and different actors in the society important for the teaching of their subject when implementing and developing teaching within and outside educational institutions.
