

I05/6 Content Sheet

Open Educational Resources (OERs)

Title:

Differentiation as a vehicle for inclusive education.

Authors:

Anssi Roiha

Name of the institution

University of Turku, Finland

Format:

Powerpoint

Keywords:

Differentiation, coherence, foreign language didactics, 5-dimensional model.

Topic:

Differentiation in foreign language didactics

Goals:

- to become aware of the definitions of differentiation.
- to become aware of the main research findings on differentiation.
- to learn about a wide range of different differentiation practices and be able to apply them in their own work.

Domains/aspects of coherence:

- Content knowledge (CK) < linguistics.
- Pedagogical knowledge (PK) < differentiation.
- Pedagogical content knowledge (PCK) < differentiation in foreign language teaching.

Intended OER user group:

Pre-service language teachers

Target group of the course (educational level and study year):

Pedagogical studies, master's level

Context information users would need to understand the OER (e.g. about the TE system, curricular integration):

Part of subject teachers' pedagogical studies (60 ECTS) which are completed within one academic year in the master's level.

Language of the example:

English
